

About EM's

EM's — Burgers Built to Hit.

Every neighbourhood deserves that one place that feels like its own. For Chembur, that place is EM's.

Founded on 18th October 2025, EM's was created with a simple thought — Chemburkars deserved really good burgers, served their way, in a space they could call their own.

Founded by Mr. Manav Talwar, who comes from a family with a longstanding legacy in hospitality, EM's brings together his experience and a passion for creating food that is exciting, indulgent and memorable.

From the very beginning, EM's has been about doing burgers differently. Our signature Pull Me Up Burger, with cheese pouring over it, became an experience in itself, while favourites like our Destroyed Fries and Deep-Fried Mac & Cheese gave comfort food an indulgent EM's twist. We were also among the early cafés to bring the UFO Burger to the scene.

But while we love pushing boundaries, some burgers simply become classics. The Classic Cheese Burger with our smashed chicken patty remains one of our most loved and best-selling burgers, while the Jaw-Breaking Melt Down continues to live up to its name.

Today, EM's continues to experiment with bold flavours and new creations like our Thecha Burger, while staying true to what made people fall in love with us in the first place, great burgers, good food, good people and an atmosphere that feels like home.

Because EM's was never meant to be just another burger café. It was built to become Chembur's burger spot.
